PRODUCT FEATURES

C-Clamp Designing

C-clamp jaws expand from 10-60mm. Attach easily to desk, workstation, benches,etc. The stand takes up less space and does not need to drill holes on the desktop.

Flexible Rotation

Enclosure can be horizontally rotated 270° and tilted 180° from forth to back to fit different viewing angles.

Security Keylock

The enclosure is locked with a barrel key, offering great security in commercial environment.

Steel Construction

The stand and face plate are constructed from durable, high-grade carbon steel for long-lasting strength and stability. It can withstand high frequency use and wear and tear.

Tightness Adjustment for Friendly Operation

Adjust the tightness of tilting and rotation as shown below for twist and friendly operation.
