

RFID Card Reader iPad Stand

SC-1306

FEATURES

Design for Modern Business

The elegant profile design makes the stand looks delicate by all sides. Be designed with full sense of science and technology, the stand can be easily integrated into any advanced modern business environment. It is light and fashionable for good combination of frosted aluminum and ABS plastic enclosure.

RFID Electronic Control Intelligent Anti-counterfeiting

The stand adopts RFID technology to support intelligent electronic control, It can automatically identify the registered ID card, and fast response by intelligent recognition, easily and efficiently. The registered card is difficult to be forged, and the unregistered ID card isn't workable to the stand. That ensures high security of the stand in public.

Handheld/Desktop

Under powder on, the tablet enclosure can be taken off with the registered ID card, and freely shared to people while the stand is installed on the table. Be designed with adjustable and detachable leather belt under the enclosure, you can take off and hold the enclosure stably with one hand, and is freely to operate on the screen with the other hand.

Easily Adjustable leather belt

180°Horizontal Rotation 90°Landscape and Portrait Switching

The enclosure supports 180 ° horizontal rotation, so the operator can share the screen with customers without removing the screen. It also can 90 ° landscape and portrait switching for different viewing experience.
