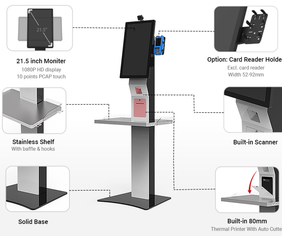
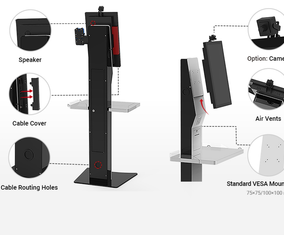
21.5" SELF-CHECKOUT KIOSK

KR-2100

- Compatible with 21.5 inch touch screen
- 10 points PCAP touch
- Built-in scanner, built-in printer
- Support Ethernet & WiFi
- Options: card reader holder,camera

FEATURES





Compact & Durable, Time-saving & Efficient

The self-checkout Kiosk designs with compact structure, with built-in scanner, built-in printer, optional card reader holder, to meet different needs of checkout environments. Compact design, small footprint, tailor-made for small supermarkets, convenience stores, etc.
Providing fast and convenient checking out experience with the self-service, shorten the waiting time, reduce the labor cost, also improve the store operation & service, and help to gain the reputation.

21.5 inch HD Screen 10 Points Touch

21.5 inch HD touch screen computer. The original commercial screen has 1080P high-definition display and 178° wide and large viewing Angle.
10 points capacitive touch technology with sensitive response and smooth operation, provides rich interaction and excellent user experience.

High Speed Scanner & Printer Faster the Checkout

Built-in high performance scanner, can read the bar code graphics on prints or mobile phones screen, supports movement reading and no backlight screen reading.
Embedded 80mm thermal printer with auto cutter, with high speed printing, quiet operation and anti-blocking paper. The front-open design, makes it easy to change the paper roll.
Brushed stainless steel shelf, can easily bear 30kgs.The humanized design of transparent baffle can effectively prevent the goods from falling off, the side hooks can hold the shopping bags. The checking out and storage are synchronized and convenient.

Detail Design Pratical & Safe

Internal hidden cable routing, makes the application environment clean and tidy.
The cable cover is designed to protect the interface and switches from being damaged or touched by people in public.
