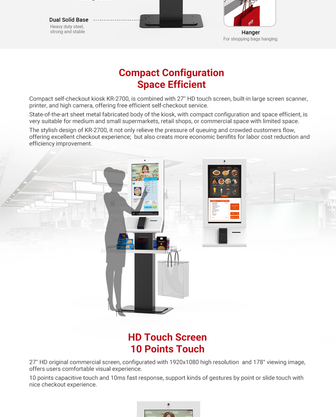
27" Self-checkout Kiosk KR-2700

- 10 points PCAP touch
- Built-in printer/scanner/camera
- Support ethernet & WiFi
- Application: floor standing /wall-mounting

FEATURES

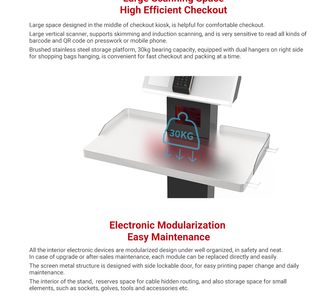


Compact Configuration Space Efficient

Compact self-checkout kiosk KR-2700, is combined with 27" HD touch screen, built-in large screen scanner, printer, and high camera, offering free efficient self-checkout service.

State-of-the-art sheet metal fabricated body of the kiosk, with compact configuration and space efficient, is very suitable for medium and small supermarkets, retail shops, or commercial space with limited space.

The stylish design of KR-2700, it not only relieve the pressure of queuing and crowded customers flow, offering excellent checkout experience, but also creats more economic benefits for labor cost reduction and efficiency improvement.



HD Touch Screen 10 Points Touch

27" HD original commercial screen, configurated with 1920x1080 high resolution and 178° viewing image, offers users comfortable visual experience.

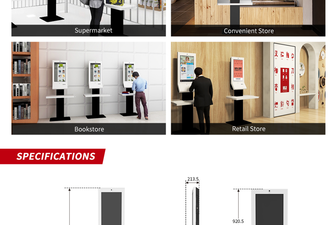
10 points capacitive touch and 10ms fast response, support kinds of gestures by point or slide touch with nice checkout experience.

Large Scanning Space High Efficient Checkout

Large space designed in the middle of checkout kiosk, is helpful for comfortable checkout.

Large vertical scanner, supports skimming and induction scanning, and is very sensitive to read all kinds of barcode and QR code on presswork or mobile phone.

Brushed stainless steel storage platform, 30kg bearing capacity, equipped with dual hangers on right side for shopping bags hanging, is convenient for fast checkout and packing at a time.



Electronic Modularization Easy Maintenance

All the interior electronic devices are modularized design under well organized, in safety and neat.

In case of upgrade or after-sales maintenance, each module can be replaced directly and easily.

The screen metal structure is designed with side lockable door, for easy printing paper change and daily maintenance.

The interior of the stand, reserves space for cable hidden routing, and also storage space for small elements, such as sockets, golves, tools and accessories etc.
